Deddf Gwasanaethau Cymdeithasol a Llesiant (Cymru) 2014

- Beth yw prif ffocws asesiad?
- Rhaid i asesiad geisio nodi'r canlyniadau y mae'r person yn dymuno eu cyflawni ac asesu – ac os felly, i ba raddau – y mae angen darparu gofal a chymorth (neu gymorth yn achos gofalwyr); gwasanaethau ataliol; gwybodaeth, cymorth neu gyngor; neu faterion eraill a all gyfrannu at gyflawni'r canlyniadau hynny.

Social Services and Wellbeing (Wales) Act 2014

- What is the primary focus of an assessment?
- An assessment must seek to identify the outcomes that the person wishes to achieve and assess whether - and if so, to what extent - the provision of care and support (or support in the case of carers) is required; preventative services; information, assistance or advice; or other matters may contribute to the achievement of those outcomes.

English

This is underpinned by the 'What Matters Conversation.' what matters to the individual is clearly central to the assessment process and can assist in creating opportunities for change if this is required.

Strengths-based models of practice challenge approaches that focus assessment on 'what is wrong', problems and weaknesses and seek, instead, to build upon the knowledge, abilities and achievements of the person being assessed. "A strengths-based approach to care,

support and inclusion says let's look first at what people can do with their skills and their resources and what can the people around them do in their relationships and their communities. People need to be seen as more than just their care needs – they need to be experts and in charge of their own lives.” (Alex Fox, Shared Lives)

Which people – such as close friends or family – you would like to be involved in your care.

Who you would like to make any decisions if there are choices to be made about your care.

Gan symud ymlaen o'r ymarfer mae'n bwysig ein bod yn edrych ar unigolion yn y cyd-destun ehangach - cofiwch fodel PCS Thompson o'r wythnos ddiwethaf? Os ydyn ni'n meddwl ein bod ni i gyd yn gysylltiedig mae'n bwysig ein bod ni fel gweithwyr yn ystyried sut mae unigolion yn cael eu cau allan. English

Moving on from the exercise it is important that we view individuals in the wider context- remember Thompson's PCS model from last week? If we think about us all being connected it is important that as workers we consider how individuals are excluded . talk through the image and add examples

For example we have the most children living in poverty in the UK despite social policy promising to eradicate this- can we therefore assess a child without considering poverty?

students need to grab a piece of paper to draw a scale and answer the question- once they have done this ask the following

What puts you at that number

What would help you move just a little bit up the scale.

This is a solution focused approach to questioning – it is important to understand the reasons for the number as opposed to just writing down the number so that we can be clearer about the reasons why that number was chosen.

Change

- I become more aware of my situation and the cause of the worry
- My family and network are able to help me.
- Having carers come into to wash me is not what I want.
- I want to stay in my own home – no matter what happens.
- I do not want my family to care for me

Gall awdurdod lleol gyfuno asesiad oedolyn neu blentyn ac asesiad gofalwr os yw'n ystyried y byddai'n fuddiol gwneud hynny ac os yw'r gofalwr a'r person sy'n derbyn gofal (neu'r person(au) sydd â chyfrifoldeb rhiant yn achos plentyn) yn cytuno.

Er mwyn osgoi dyblygu asesiadau, dylai'r asiantaethau / partneriaid sy'n gysylltiedig weithio'n agos gyda'i gilydd i gyflwyno asesiad cydgysylltiedig sydd wedi'i siapio o amgylch y person. Dylai ymarferwyr sicrhau bod barn ac arbenigedd gweithwyr proffesiynol eraill yn cael eu ystyried.

Rhaid i ddull yr awdurdod lleol o asesu a chymhwysedd gael ei gyfleu'n glir fel bod pawb yn gallu deall sut i gael mynediad at asesiad, beth mae asesiad yn ei olygu, sut y caiff ei gynnwl, pwy fydd yn cymryd rhan a beth mae'n ei olygu iddyn nhw.

Pwynt dysgu allweddol

Gall awdurdod lleol gyfuno asesiad oedolyn neu blentyn ac asesiad gofalwr os yw pob parti yn cytuno.

English

A local authority may combine an adult's or child's assessment and a carer's assessment if it considers it would be beneficial to do so and if the carer and the cared for person (or person(s) with parental responsibility in the case of a child) agree.

In order to avoid the duplication of assessments the agencies / partners involved should work closely together to deliver a co-ordinated assessment that is shaped around the person. Practitioners should ensure other professionals' views and expertise are taken into account.

The local authority's approach to assessment and eligibility must be clearly communicated so that all people can understand how to access an assessment, what is involved in an assessment, how it will be undertaken, who will be involved and what it means for them.

Key learning point

A local authority may combine an adult's or child's assessment and a carer's assessment if all parties agree.

Enghraift o Ymarfer

- Mae Annie mewn ward ar gyfer pobl hŷn â dementia. Dywed staff gofal fod ei hymddygiad yn dod yn fwyfwy anrhagweladwy. Ddoe, daeth yr ymarferydd gwaith cymdeithasol sydd newydd gael ei neilltuo i weithio gydag Annie i ymweld a hi. Eisteddodd wrth ei hymyl wrth erchwyn ei gwely, cymerodd Annie sip o'r cwpan a'i boeri at y gweithiwr gofal cymdeithasol ac yna taflodd y cwpan ati.

Practice Example

- Annie is in a ward for older people with dementia. Care staff report that her behaviour is becoming increasingly unpredictable. Yesterday, the social work practitioner who has been newly assigned to work with Annie came to visit her. She sat beside her at her bedside, Annie took a sip from the cup and spat it at the social care worker and then threw the cup at her.

- How would you deal with this?
- What could be the reasons for this?
- What might cause challenging behaviour?
- How might this impact upon the practitioner and their work with Annie?
