1- byddwn yn ystyried tri model asesu – gan edrych ar y modelau a awgrymwyd gan Beckett a Crawford.

2- Paratoi – arafu'r meddwl, bod yn glir ynghylch sut rydym yn paratoi ar gyfer y gwaith – er enghraift mae'n rhaid i ni gynnwys barn a dynuniadau'r person(au) sydd â chyfrifoldeb rhiant.

Myfyrio ar theori datblygiad plant a sut y gall hyn ein helpu i baratoi ar gyfer sesiynau asesu gyda phlant.

Ymgorffori dull gweithredu seiliedig ar hawliau o gychwyn cyntaf y broses asesu.

3. gofynnwch i'r grŵp beth yw rhai o'r rhwystrau wrth siarad â phlant – Hwylusydd i gofnodi'r ymateb ar siart troi. Byddwn yn trafod hyn ymhellach yn ystod y ddarllith hon.

English

1- we will consider three models of assessment – looking at the models suggested by Beckett and Crawford.

2- Preparation – slowing out thinking down , being clear about how we prepare for the work- for example we must include the views and wishes of the person(s) with parental responsibility.

Reflecting on child development theory and how this can help us prepare for assessment sessions with children.

Embedding a rights based approach from the very start of the assessment process.

3. ask the group what are some of the barriers when talking with children – Facilitator to capture the response on flip chart. We will be discussing this further during this lecture.

Asesiadau

Efallai mai asesu yw'r cyfle cyntaf i feithrin perthynas â'r unigolyn a'i ofalwyr.

Gall profiad da wneud i unigolion deimlo'n bositif am dderbyn cymorth a'u hagwedd atoch chi a'r asiantaeth.

Mae'n gyfle i gefnogi/gweithio gyda'r unigolyn mewn partneriaeth a chael dealltwriaeth ddyfnach o'u sefyllfa ac i feddwl am yr hyn sydd angen digwydd.

Assessments

Assessment may be the first opportunity to build a relationship with the individual and their carers.

A good experience can make individuals feel positive about receiving help and their attitude to you and the agency.

It is the opportunity to support /work with the individual in partnership and gain a deeper understanding of their situation and to think about what needs to happen.

- Pa fframweithiau asesu ydych chi'n eu defnyddio?
- Sut ydych chi'n esbonio ac yn cael caniatâd gan yr unigolyn?
- Cyfrinachedd

Individual exercise

- How do you prepare for assessments within your agency?
- What assessment frameworks do you use?
- How do you explain and gain consent from the individual?
- Confidentiality

Gofynnwch i'r myfyrwyr feddwl am yr holl gamau maen nhw'n eu cymryd – er enghraiftt, wrth dderbyn y wybodaeth, ydyn nhw'n ffurfio rhagdybiaeth – sut maen nhw'n profi neu'n gwrthbrofi eu barn?

Sut maen nhw'n ystyried gwahanol anghenion cyfathrebu - Cynnig Rhagweithiol

Pa ddeddfwriaeth sydd angen iddynt ei hystyried – Deddf Diogelu Data 2018

Rhowch 3 munud i unigolion ysgrifennu beth maen nhw'n ei wneud

5 munud i'w rannu gyda'r person nesaf atynt (os ar-lein eu rhoi mewn parau). ac yna dod yn ôl at y prif grŵp am 7 munud o adborth. Hyfforddwr i ysgrifennu ymatebion ar siart troi.

Mae paratoi yn allweddol – mae'n dangos consyrn am yr unigolyn ac yn ei helpu i deimlo ei fod yn cael ei werthfawrogi. **Camau:**

Casglu gwybodaeth berthnasol (systemau TG/pobl).

Dechrau ffurfio llun

cysylltu â gweithwyr proffesiynol eraill dan sylw (ystyried caniatâd)

ymchwilio i faterion a allai gael eu cyflwyno - e.e. trais domestig, camddefnyddio alcohol, defnyddio cyffuriau ac ati.

mae'r ail gwestiwn yn ymwneud â phum elfen y fframwaith asesu, y fframwaith asesu ar gyfer plant a'u teuluoedd ac ati

Polisiau cyfrinachedd – beth yw paramedrau cyfrinachedd. Archwilio cyfrinachedd llwyr, rhannu gwybodaeth ag eraill ac ati - cysylltu â Deddf Diogelu Data 2018

English

Ask students to think of all the steps they take- for example on receiving the information do they form a hypothesis- how do they prove or disprove what they think?

How do they consider different communication needs- Active Offer

What legislation do they need to consider – Data Protection Act 2018

Give individuals 3 minutes to write down what they do

5 minutes to share with the person next to them (if online put into pairs). and then come back to the main group for 7 minutes feedback. Trainer to write responses on flip chart.

Preparation is key – it shows concern for the individual and helps them to feel valued. **Stages:**

Gather relevant information (IT systems/people).

Start to form a picture

contact other professionals involved (consider consent)

research issues that might be presented- e.g domestic violence, alcohol misuse, drug use etc.

the second question connects to the five elements of the assessment framework, assessment framework for children and their families etc

Confidentiality policies- what are the parameters of confidentiality . explore absolute confidentiality, sharing information with others etc- connect to Data Protection Act 2018

Mae paratoi effeithiol yn hanfodol. Mae'n dangos gofal a'n bod yn gwerthfawrogi ac yn parchu'r unigolyn

Tiwnio i mewn:

Sut brofiad yw hi i fod, ee plentyn pum mlwydd oed, person hŷn, person anabl neu berson ifanc?

Effective preparation is vital. It shows concern and that we value and respect the individual

Tuning in:

What is it like to be, for e.g. a five year old child, an older person, a disabled person or an adolescent?

exercise on the importance of being present when communicating with others. This also connects to how behavior is used as a form of communication

split the group into two groups A & B

if using a virtual platform – put groups into two groups and then in pairs to continue with the exercise .

Ask group A to leave the room while you speak to Group B.

Ask Group B to think of something they are passionate about- this can be anything but they will need to talk about the subject for at least two minutes. it could be human rights, their family, their pet , friends , social issues etc.

Meet with Group A outside the room making sure Group B cannot hear what is being said. inform group A that they need to actively listen to their partner from Group B, nodding , maintaining eye contact, sit opposite them, mirror their body language, they can ask questions – show a real interest in what they are saying etc. After one minute I will shout out you have one minute left- I want you to be as disinterested as you can be, look at your phone, turn away, yawn, change body position, no eye contact etc.

at the end of two minutes gather feedback from both groups and connect this to the importance of 'being present ' when communicating with others.

Cydnabod profiad bywyd

- Er mwyn cyfathrebu'n effeithiol mae angen i ni gydnabod effaith profiad bywyd (yr unigolion rydym yn gweithio gyda nhw a'n rhai ein hunain)
- Mae cydnabod hunaniaeth a'r ffactorau/profiadau cymdeithasol sydd wedi llunio person yn ein galluogi i ystyried sut y gallwn gyfathrebu'n effeithiol.

Recognising life experience

- In order to communicate effectively we need to acknowledge the impact of life experience (both the individuals we work with and our own)
- Acknowledging identity and the social factors/experiences that have shaped a person allows us to consider how we can communicate effectively.

Gofal Cymdeithasol Cymru
Social Care Wales

www.gofalcymdeithasol.cymru
www.socialcare.wales

Why is it important to recognise our own experience/values and identity ?

Consider power imbalance and professional boundaries

Pontio a chyfnodau bywyd

- Gall deall pontio a chyfnodau bywyd ein helpu i ddeall pam mae unigolyn yn ymateb yn y ffordd y mae.
- Ar eich pen eich hun meddyliwch am enghraifft o'ch rôl bresennol lle mae cyfnod pontio yn ystod datblygiad y person wedi cael effaith arnynt heddiw.

Transitions and life stages

- Understanding transitions and life stages can help us understand why an individual is responding in the way that they are.
- On your own think of an example from your current role where a transition during the persons development has had an affect on them today.

Facilitator Notes

hwylusydd – animeiddiadau yn eu lle

Wrth gyflwyno'r sleid hon, cysylltwch â'r fideo gofynnwyd i fyfyrwyr wyllo fel rhan o'u hastudiaeth dan gyfarwyddyd. Y pontio o fabandod/glasoed/oedolyn ifanc/oedolyn a sut y gall y rhain effeithio ar y ffordd y gallai unigolyn ymddwyn mewn sefyllfa.

Er enghraifft, plentyn nad oedd byth yn cael annibyniaeth a dewis - sut y gellir disgwyl iddo wneud dewisiadau fel oedolyn?

Mae oedolyn ifanc a oedd yn derbyn gofal gan yr awdurdod lleol tan ei fod yn 16 yn bei chiogi yn 19 oed ac nid oes ganddi unrhyw gymorth teuluol i'w helpu.

Mae **cyfnodau pontio** yn brosesau o **newid** o fewn cwrs bywyd. Maent yn mynnu newid personol ac yn aml yn arwain at ailaddasu rôl.

Mae **cyfnodau pontio** yncflwyno heriau ar gyfer **twf a datblygiad**. Mae gan bob cyfnod pontio y potensial i fod yn straen ac yn heriol, hyd yn oed y rhai y gallem gynllunio ar eu cyfer a'u croesawu.

Mae angen inni ystyried nid yn unig y **safbwytiau negyddol** o straen a her ond hefyd y potensial ar gyfer **twf a datblygiad**.

Mae **modelau o weithio** megis y **dull seiliedig ar gryfderau** yn ein cynorthwyo ni i wneud hynny.

Yna gofynnwch i'r myfyrwyr feddwl am eu henghreiffiau eu hunain - gan gadw cyfrinachedd gofynnwch am ddu wirfoddolwr i rannu eu henghreiffiau.

English

facilitator – animations in place

When introducing this slide, connect to the video students were asked to watch as part of their directed study. The transitions from infant/adolescence/young adult/adult and how these can impact on the way an individual might behave in a situation.

For example, a child who was never allowed independence and choice - how can they be expected to make choices in adulthood?

A young adult who was looked after by the local authority until they were 16 becomes pregnant at the age of 19 and has no family support to help her.

Transitions are processes of **change** within the life course. They demand personal change and often result in role readjustment.

Transitions present challenges for **growth** and **development**. All transitions have the potential to be stressful and challenging, even those that we might plan for and welcome. We need to consider not only the **negative perspectives** of stress and challenge but also the potential for **growth and development**.

Models of working such as the **strengths based approach** assist us in doing so.

Then ask students to think of their own examples- maintaining confidentiality ask for two volunteers to share their examples.

Atgoffwch y myfyrwyr o egwyddorion Deddf Gwasanaethau Cymdeithasol a Llesiant (Cymru) 2014 – y sgwrs beth sy'n bwysig

Sgwrs Beth sy'n Bwysig - byddwn yn archwilio hyn ymhellach wrth ystyried sut y gallai profiadau blaenorol ac iaith gyntaf, er enghraifft, rwystro gallu cyfathrebu eu llais, dewis ac ati.

Gofynnwch i'r myfyrwyr weiddi pa ddarpariaeth sydd mewn lle ar gyfer siaradwyr Cymraeg.- Cynnig gweithredol - mae hyn yn gofyn i'r rhai sy'n cynnal yr asesiad gynnig yn hytrach nag aros i unigolyn ofyn.

English

Remind students of the principles of the Social Services and Wellbeing (Wales) Act 2014 – what matters conversation

What Matters Conversation we will be exploring this further when considering how previous experiences and first language for example might get in the way of being able to communicate their voice, choice etc.

Ask students to shout out what provision is in place for Welsh speakers.- Active offer – this requires those undertaking the assessment to offer as opposed to waiting for an individual to ask.

Rhwystrau i gyfathrebu

- Tair o'r heriau a nodir amlaf yw:
 - Delio ag ymddygiad ymosodol a threisgar
 - Ymdopi â phoen a thristwch
 - Rheoli tawelwch.
- (Wilson.2008)

Barriers to communication

- Three of the most commonly identified challenges are:
 - Dealing with aggressive and violent behaviour
 - Coping with pain and sadness
 - Managing silence.

1: delio ag ymddygiad ymosodol – gofynnwch i'r myfyrwyr sut maen nhw wedi rheoli hyn yn y gorffennol – pa sgiliau cyfathrebu sydd wedi eu helpu nhw a'r unigolyn i weithio drwy'r sefyllfa.

ymdopi â phoen a thristwch: gofynnwch i'r grŵp a yw hyn erioed wedi effeithio ar eu gwaith – gan fyfrio ar y sefyllfaoedd y mae'n rhaid i weithwyr ddelio â nhw
o safbwyt yr unigolion sut mae poen a cholled eu sefyllfa wedi effeithio arnyn nhw a'u gallu i gysylltu â'r gwaith sydd angen ei wneud?

rheoli distawrwydd - eto gofynnwch i'r grŵp pam fod distawrwydd yn bwysig?
pa mor gyfforddus ydyn nhw gyda distawrwydd?

English

1: dealing with aggressive behavior – ask students how they have managed this in the past- what communication skills helped them and the individual work through the situation.

coping with pain and sadness: ask group if this has ever impacted on their work- reflecting on the situations workers have to deal with
from the individuals perspective how has the pain and loss of their situation impacted on them and their ability to connect with the work that needs to be done?

managing silence- again ask the group why is silence important?
how comfortable are they with silence?

Colled a newid

- Trwy ein bywyd rydyn ni'n mynegi ein hunain trwy bethau sy'n rhoi ystyr i ni – gwrthrychau fel gemwaith, ffotograffau, hobiau, diddordebau, swyddi ac ati. Yr ymlyniadau hyn yw'r hyn y mae Marris (1986) yn cyfeirio ato fel ein byd tybiedig – pan fydd hyn dan fygythiad, yna mae ein hymdeimlad o ddiogelwch dan fygythiad.

Expressing Ourselves

- Through life we express ourselves through things that give us meaning – objects such as jewellery, photographs, hobbies, interests, jobs etc. These attachments are what Marris (1986) refers to as our assumptive world. – when this is threatened, then our sense of security is threatened.

Os byddwn yn colli gwrthrych neu berson, y cryfaf oedd yr ymlyniad oedd gennym at y gwrthrych neu'r person hwnnw, yna'r mwyaf o fygythiad i'n diogelwch neu hunaniaeth. Gall hyn fod yn fwy cymhleth os byddwn yn profi nifer o golledion dros gyfnod cymharol fyr.

Mae Marris yn awgrymu bod angen i fodau dynol ddal gafael ar bethau cyfarwydd fel ymateb naturiol i newid, hyd yn oed os yw'r newid hwnnw'n cael ei ddewis ac yn fuddiol. Mae deall yr agwedd hon ar golled a newid yn amhrisiadwy ar gyfer ymarfer gofal cymdeithasol effeithiol. Mae'n ein helpu i ddeall ac yna gweithio gyda phobl sy'n ymddangos yn anfodlon neu'n methu â gwneud newidiadau cadarnhaol yn barhaus – y fenyw mewn perthynas gamdriniol, y person sy'n cael trafferth delio â chaethiwed i gyffuriau neu alcohol, y person digartref sy'n methu â dod i gyfarfodydd am denantiaeth.

Mae deall yr agwedd hon ar golled neu newid yn amhrisiadwy ar gyfer ymarfer gwaith cymdeithasol effeithiol – mae'n ein helpu i ddeall ac yna gweithio gyda phobl sy'n ymddangos yn anfodlon neu'n methu â gwneud newidiadau cadarnhaol. (hy mae angen i ni ddeall byd tybiedig person - beth sy'n cyfrannu at ei synnwyr o'r hunan a safbwyt y byd ohono).

English

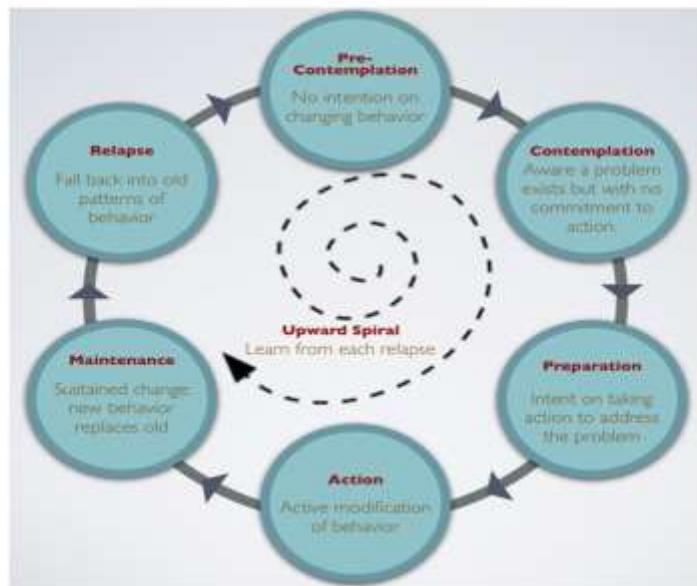

If we lose an object or a person the stronger the attachment we had to that object or person, then the greater threat to our security or identity. This can be further complicated if we experience a number of losses over a relatively short period of time.

Marris suggests that humans need to hold on to familiar things as a natural response to change, even if that change is chosen and is beneficial. Understanding this aspect of loss and change is invaluable for effective social care practice. It helps us understand and then work with people who seem to be persistently unwilling or unable to make positive changes – the woman in an abusive relationship, the person struggling to deal with drug or alcohol addiction, the homeless person who fails to appear at meetings re a tenancy.

Understanding this aspect of loss or change is invaluable for effective social work practice – it helps us to understand and then work with people who seem to be unwilling or unable to make positive changes. (i.e. we need to understand a person's assumptive world – what contributes to their sense of self and the world's view of them).

Datblygodd James Prochaska a Carlo Diclemente(1982) fodel o newid.

James **Prochaska** and Carlo **Diclemente (1982)** developed a model of change.

Theory about understanding peoples readiness to make change. Nobody changes by force, change occurs most sustainably when it is something which people genuinely desire.

Pre contemplation – ignorance is bliss. Workers skill here is about clarifying the decision to change is theirs, explaining the risks of not changing and offering encouragement.

Contemplation stage – ambivalent about making changes , reluctant to set a timescale for doing things differently. Workers support individuals to consider the costs and benefits of their current situation and a scenario where things were different.

Preparation – ‘testing the waters’ worker should look at problem solving to support person to move past barriers they feel exist. Identify support resources to move forward.

Encouragement – everyone has skills to make changes if they want to.

Action – worker should focus on support available to person and encourage person to note success. Feelings of loss may be apparent for the person in moving away from their old way of living so the benefits of the new situation should continue to be encouraged.

Maintenance

Relapse – worker should reassess motivation and the barriers they face. Evaluate the reasons for relapse and promote strategies for the person to continue with change.

Yn wahanol i sgyrsiau achlysurol, maes y gweithiwr gofal cymdeithasol yw amgylchedd lle mae'n ofynnol i'r unigolyn gael cipolwg ar ei ymddygiad a sut mae'n delio â (prosesu) phroblemau/sefyllfaoedd. Gall hyn gynnwys manylion sensitif/personol.

Felly mae'n rhan o'ch tasg i greu amgylchedd lle mae'r unigolyn yn teimlo'n ddiogel o ran cael trafodaethau agored a gonest. (ydyn ni bob amser yn agored ac yn onest?)

Archwiliwch a ydym bob amser yn agored ac yn onest am ein bywyd ein hunain - ailgysylltwch â'r llinellau amser a gofyn i fyfyrwyr fyfyrto ar yr heriau o rannu gwybodaeth bersonol.

English

Unlike casual conversations the realm of the social care worker is an environment where the individual is required to gain an insight into their behaviour and how they deal with (process) problems/situations. This may involve sensitive/personal details.

Therefore it is part of your task to create an environment where the individual feels secure in terms of having open and honest discussions. (are we always open and honest?)

Explore whether we are always open and honest about our own life- reconnect to the timelines and ask students to reflect on the challenges of sharing personal information.

Dymunolrwydd Cymdeithasol – tueddiad i ddweud neu wneud pethau a fydd yn gwneud i berson neu eu grŵp cyfeirio edrych yn dda – pryderon ynghylch cael eu barnu'n negyddol – amharodrwydd i ddatgelu credoau amhoblogaidd, arferion rhyfedd, chwaeth neu ddymuniadau anghyffredin.

Ymdeimlad o breifatrwydd – gall ymdeimlad y defnyddiwr o breifatrwydd dylanwadu ar ymatebion sy'n ymwneud â materion sy'n wahanol i drafodaeth bob dydd – e.e. crefydd, materion ariannol, rhyw, materion cyfreithiol, swyddogaethau'r corff ac ati.

yn gyntaf ar eich pen eich hun pa ddulliau cyfathrebu fyddech chi'n eu defnyddio i adeiladu perthynas gyda'r unigolyn

Sut byddwch chi'n gwybod bod y dull hwn yn briodol?
Nad yw'n creu stigma nac yn atgyfnerthu canfyddiadau negyddol.
beth fydd angen i chi ei ystyried wrth rannu gwybodaeth ag eraill

3 munud ar eich pen eich hun - yna i mewn i grwpiau o 5 am 10 munud, yna rhoi adborth i'r grŵp cyfan

fel grwpiau i enwebu rhywun i roi adborth

English

Firstly on your own what communication methods would you use to build a relationship with the individual

How will you know that this method is appropriate?

That does not stigmatise or reinforce negative perceptions.

what will you need to consider when sharing information with others

3 minutes on your own – then into groups of 5 for 10 minutes , then feedback to the whole group

ask groups to nominate someone to feedback
